RELATIVES OF LAKE FOLKS FELT QUAKE

KINGS BEACH—Wilma Abbott had many anxious moments last week, when the news came of the earthquake and slide in West Yellowstone Park. Her sister and husband, Mr. and Mrs. Bing Engle, were in the area with their trailer on a fishing and hunting trip.

They were marooned on the bridge over the dam for many hours where there were about 150 persons. They wrote a big SOS with white powder to attract planes, which finally came to their rescue.

The Salvation Army was the first relief to come to their aid and many people were forced to stay in trees all night. The Engles are now back in Bakersfield.

Country Club To Name Officers At Meet On Friday

The initial meeting of the recently formed Shadow Valley Country Club will be held tomorrow, Friday, August 28 at 8 p. m. in the office of the justice court on the main street.

The principal purpose of the meeting will be to elect officers and draw up the governing by-laws necessary for the non-profit corporation to be created.

The formation of the club is strictly for social activities and will operate in conjunction with the Shadow Valley golf course. However, it is not at all necessary that members be golfers to be members of the organization.

Among other things to be discussed at Friday's meeting, according to Mrs. Betty Kielhofer, secretary of the Truckee Recreation Committee, will be the most practical way to secure a clubhouse for the new course. It is hoped that some good suggestions will be presented and the best decided upon.

Everyone wishing success to the new organization, whether residents of the immediate area or not, is urged to atend the meeting.

Verdi, Truckee To Play Off Tie With Game On Sunday

Contest On Local Field Is Expected To Be A Spirited Affair

By JOHN FIRPO

This Sunday at 2 p. m. the Truckee Mountaineers and the Verdi Vandals meet in a game to decide whom will be the 1959 Champions of the Sierra-Nevada League. Verdi tied the locals by beating the Lovelock Merchants and Desert Admirals of Fallon over the past weekend. The two victories placed the Nevadans and Californians on top of the league with identical 10-2 records for the regular season of play.

Both ball clubs agreed to play in Verdi due to the fact that their park is more suitable for play then the Mountaineer field. Both clubs also agreed that a flip of a coin will decide who is to be the home team and who is to be the visitors.

Craig Robinson will be the starter for Truckee while Verdi will send their star hurler Wes Apperson to the mound. The game will prove very tightly fought due to the fact there has always been a strong rivalry between the two ball clubs no matter what game; regular or championship.

Fastest Jury Case Is Conducted Here

In probably the fastest jury trial in the history of the Truckee court, John C. Manley, 45, a Truckee laborer, Monday was found guilty on two counts filed against him as the result of a brawl a month ago.

From the time the court convened at 10 a. m., until the jury was discharged, less than one hour was consumed. The guilty verdict on two counts, one of being drunk and disorderly and the other of assault, was reached on the first ballot.

The complaints were filed by Charles A. Degnon, who was struck over the head by the defendant during the fight and by Deputy Sheriff P. A. Patnoude.

District Attorney Harold Berliner conducted the prosecution and Judge F. W. Wilson presided. The jury consisted of Oscar Schumacher, foreman; James Merritt, Eugene Welch, Josephine Brown, Sam Follett, Erwin Waters, Daven Morey, W. M. Englehart, Sr., Laura Roberts, Delta Stevenson and Nace Firpo.

SUNBEAMS

By WALTER M. BARRETT

As the date for the 1960 Olympic Winter Games at Squaw Valley draws closer, the trend seems to be turning more and more to the very thing which must be avoided if this region is to get full benefit from the results of the games. The thing to which we refer is the possibility of getting rich quick. If someone can show this is possible, it might even be a good thing for all of us, but the sad part of it is that the few who will gouge are going to destroy the finest potential this region has ever had or may ever have. At the same time they will be benefitting only slightly in a monetary way. No one in the district has a big enough operation to do more than add a few extra dollars to their usual income. On the other hand, if all are fair to the thousands of visitors anticipated, and charge only reasonable rates for accommodations, a large percentage of these guests will return year after year, providing a long-range source of income from which both the guest and the host will derive pleasure and profit. We can't expect to sway the chiselers — they will do what they can to make a quick buck and then like the Arab of old, fold their tents and softly steal away, leaving a very distasteful atmosphere, which may take the sensible business operator years to overcome. Those of us planning to make this community a better and more permanent place can be the leaders and we think this might eliminate, or at least deter, some of the get-rich-quick people who are here briefly and for one selfish purpose.

Lower Tax Rate, Bigger Budget Is Passed By Board

Local District Taxes Still Will Be Up As Basic Rate Lowered

The largest budget and the lowest tax rate in the past ten years was adopted by the Nevada County Board of Supervisors at their meeting last week.

The basic tax was established at $1.89, which is a reduction of one cent from the $1.90 last vear. The fiscal year budget is $3.126,626.30.

County Clerk and Auditor John Trauner said the decrease of one cent was made possible through an increase of $1.445,240 in assessed valuations. Of this increase, $1,181,000 is on the county secured list and the remainder on the public utility roll.

The $1.89 rate provides for all department costs and services rendered to the public and allows for a five per cent salary increase for all county employes, exclusive of departmentmental heads, if the board decides to grant the raises. The tax rate also sets up a reserve of $228,177.30.

LOCAL TAX

On top of the basic county tax, there are a number of special district taxes to be added in various districts. In Truckee, for instance, special district taxes total $3.43, which include schools, $1.74; Truckee Sanitary District, .60; Tahoe Forest Hospital, .30; Truckee Fire District, .47; Truckee Tahoe Airport District, .05; Sierra College, .37, or a total of $3.43 in special district taxes.

This added to the basic rate of $1.89 brings the total for Truckee proper to $5.32 per $100 assessed valuation.

The budget broken down shows that the board allowed $790.009 for salaries and wages, $2,041,-705.69 for maintenance and operation, $66,794.30 for capital outlay, $80,000 for the unappropriated reserve and $148,117.31 for general reserves.

The break occurred Sunday night and was repaired as quickly as possible Monday, Walker said, and all those along the river were warned in time to prevent use of contaminated water.

PLACER BOARD GIVES NOD TO CO. CHARTER

Despite protests from the property owners and residents of the North Lake Tahoe district, the Placer County Board of Supervisors unofficially moved to place a proposed charter form of county government on the ballot next June.

In a stormy session with a committee of the county grand jury the supervisors agreed to let the electors decide on electing a board of freeholders to draw up the charter. The charter issue probably would be placed on the ballot in the November general election.

Tempers flared among the supervisors as they discussed how the charter could provide a better system of government.

Supervisor Frank Paoli told the committee a charter was "premature by at least 10 or 15 years." However, he said he would be in favor of letting the people decide if the election was held during the scheduled June ballot. Paoli said a special election would cost approximately $10,000.

He urged public hearings be held and all information media be used in the discussion of a charter system because "people don't know anything about it."

Supervisor Robert Radovich, however, favored a charter system.

"It would give greater administrative control," he explained.

Radovich had headed a supervisors' committee studying a charter form of government.

REPLACES BURKE

Donald S. Blair has been employed as assistant superintendent in charge of curriculum in the office of the Placer County Superintendent of Schools, replacing Frank Burke who resigned to accept a position in Contra Costa County.

The press building at Squaw Valley, site of the VIII Olympic Inter Games, Feb. 18-28, 1960, is longer than a football field. Its exact dimensions are 328 ft. x 66 ft.

A preview of Olympic crowds at Squaw Valley can be seen in the reported 1,000 visitors a day this summer, six months before the games. Two free conducted tours are made daily, at 11 a. m. and 2 p. m., starting at the administration building.

Several resorts on this side of the lake are already flying the Olympic flag. They have joined the group of hotels and motels in the area who agree to "hold the line" on Olympic prices in 1960. Tahoe City hopes to push a clean-up-paint-up projects, similar to the one in Truckee, which incidentally, attracted national attention in the press. Every Tahoe area, of course, will want to put its best foot forward for the thousands of visitors who will come to the Olympics.

Mrs. Phil Geier, Tahoe City, writes that the Red Cross swim program, which was completed on August 14 under the competent teaching of Miss Ann Trammel, issued 17 beginners, 19 intermediate, and 9 advanced swimmer certificates from a class of 50. The program was most successful. Mrs. Geier, fund chairman for the Tahoe area, expressed her thanks to the Tahoe Truckee School District for furnishing the transportation; the Soroptomist Club for its generous donation and the Kings Beach and Lake Tahoe PTA members for their donations. The Tahoe branch of the American Red Cross gives $100 annually to support this worthwhile program, a good thing to rememer when the March Red Cross campaign solicits funds. Part of your donation goes to help toward teaching our young folks to swim.

Tahoe-Truckee High School welcomes several new teachers this year:

Miss Evelyn Ames, of Reno, and a recent graduate of the University of Nevada, will be Girls' Physical Education instructor.

Neil Gates, from Ceres High School, Ceres, California, will instruct in history, and coach varsity basketball.

Thelbert F. Greene, also from Ceres High School, will instruct in wood and metal shop.

Mrs. Elizabeth Stewart, who has been doing graduate study for the past year, will be dean of girls, and instruct in journalism and Spanish.

Kenneth A. Stewart, from Napa Junior High School, will teach the ninth grade core classes.

William L. Vassar, who has just completed a tour of duty with the army in West Germany, will instruct the new course in Auto mechanics.

A new wing has been added to Tahoe-Truckee High School during the summer to provide nine new classrooms, and office space for the business department of the district. In spite of the increase in enrollment this year, the library can now be expanded, and no classes will need to be held in the cafeteria, the hallways, or the team room. And there will be individual lockers for each student.

A new automotive shop has been added, and nearly 100 boys have already enrolled in courses in this department.

In accordance with Dr. Conant's recommendations, a new arts and crafts room has been added opposite the cafeteria. The entrance to the school has been improved to provide a warm outer lobby where students may remove raincoats and rubbers on stormy days.

The work has been done by E. H. Moore and Son, and several sub-contractors, at a cost of more than $375,000; the men often working at night and on Saturday to complete the job by the time school starts, said John S. Corbin, district superintendent.

In line with modern educational thinking, the school day has been lengthened, by twenty minutes, to 3:30 p. m. This will add nine days of instruction to the school year, according to Mr. C. W. Sciutto, principal.

SOROPTIMIST AIMS AIRED AT MEETING

KINGS BEACH—Represented at the Monday night, August 24 meeting of the Rotary Club of North Lake Tahoe were visiting Rotarians from 17 clubs. After the introductions of the visiting members and guests, President Mex Springer turned the meeting over to program chairman for the evening, Paul Mullis who introduced Marge Fellows of Carnelian Bay a member of the local Soroptimist Club.

Mrs. Fellows told of the aims and ideal of soroptimism, such as their scholarship fund for which they raise approximately $30,000 annually by various means. For instance the local club presented "The Drunkard" during the past year, the proceeds from which they were able to contribute $1,200 to the scholarship fund. Another project is the improvement of the libraries located in Tahoe City and Kings Beach.

Mrs. Fellows remarks were very interesting as they gave the Rotarians an insight into the aims and functioning of her organization.

All skating events in the VIII Olympic Winter Games at Squaw Valley, February 18-28, 1960, will be held on artificial ice. It will mark the first time in Olympic history that artificial ice will have been used for speed skating.

CAMPING ON A NATIONAL FOREST

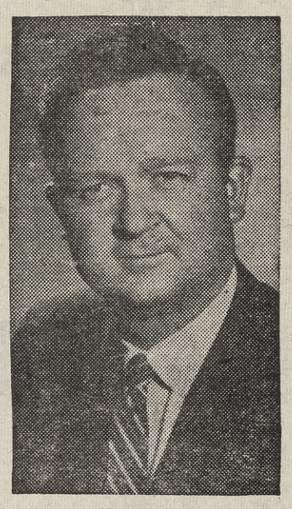
Last year, more than 40 million visits to the national forests were made by recreationalists from all states of the Union for camping, picnicking, fishing, hunting, swimming, skiing, hiking, riding and numerous other outdoor activities.

To make these visits more pleasant the Forest Service of the U. S. Department of Agriculture has provided 4,400 improved camping and picnicking grounds, 210 winter sports areas, 190 swimming places, and 120,000 miles of trail for hiking and horseback. In addition, 79 wilderness, wild and primitive areas totalling 14 million acres have been set aside for those who want to get completely away from the auto horns of the roadside and the jingle of the telephone.

The spending done by millions of national forest recreational users is an important source of income to local business.

Use is so heavy at many of these areas that caretakers are unable to provide for adequate cleanups. The Forest Service, which is observing its Golden Anniversary this year, urges each user to do a bit more than his or her share to protect these recreation areas against damage and to help in keeping them clean and neat.

As population rises and modern civilization becomes more complex there will be increasing public demand for the many forms of healthful outdoor recreation which our national forests afford and which everyone needs for spiritual and physical well being.



CRYSTAL BAY — Named as planning executive director of the Lake Tahoe Area Council, starting September 1 is Raymond M. Smith, former director of regional planning for Reno, Sparks and Washoe County. Smith's appointment was confirmed by the board of directors meeting August 25.

Sure, she's a grand old flag!
That's why we salute her.
That's why we pledge allegiance to her.

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.

DONNER DOINGS

BY VIRGINIA O' BEAR

Mr. and Mrs. Lester L. Johnson are coming right along with their new duplex being built near the Ted Franklins home. Mr. Johnson had to go back to Los Angeles but will be back soon to join Mrs. Johnson with the finishing touches. They mentioned that they were so happy that Donner Lake is being patrolled because they have had a lot of trouble with boats coming in too close to their swimming area.

* * *

Miss Shirnell Hansen has returned home after spending six weeks with her grandmother at Glenn, Calif. Shirnell cut her hair while she was away and it is very becoming. She is busy now preparing for school as so many other youngsters are.

* * *

Ed Schwerdt of San Francisco, drove up to Donner in his brand new Rambler. Many people will remember him as he helped build Squaw Valley in 1949. He is now with a carpet company in San Francisco but managed to get away from his busy schedule to visit old friends.

* * *

Many picnics were held at Donner Lake over the weekend. One was Saturday at the west end of Donner Lake and it was an annual affair which is celebrated by all of the employees of Ransome Company. Ransome Company employees came from Carson City, Virginia City, Reno and from the local plant in Truckee. After the delicious barbecue, everyone joined in with baseball, horseshoe games, volley ball and some went boating and swimming.

* * *

Another picnic was enjoyed Saturday by a large group of boys from Reno. They are Mormon boys belonging to the Church of Jesus Christ Latter Day Saints. Gordon Melchor, general secretary for the Mt. Rose Ward, was in charge with Nathan T. Hurst, advisor, assisting with all of the games. Also lending a hand was first counselor, Crtis F. Cowley. Other members who joined the games with the boys were Bishop Leonard D. Robinson, Donald H. Christianson, Raymond Sheen and Scouter Shirnl Coleman. Once a month these boys are taken on an outing to various places to be taught sportsmanship, love of fellowship for each other, appreciation of natural resources and nature. It was quite evident that these boys enjoyed themselves and I was told that Donner Lake was one of their favorite spots and that they have one more outing planned for Donner this year.

* * *

Miss Verley Wardell of Reno, had to have several stitches taken in her finger Saturday as it was cut by someones propeller while she was pushing a boy to safety to keep the boat from running over him. She spotted the boy swimming in the swimming area and saw the boat heading straight towards the boy so she jumped into the water, clothes and all and prevented a serious accident. It all happened so quickly and by the time everyone checked the boy and Miss Wardell, the boat was gone. No one could get the number of the boat as it was traveling too fast. They probably didn't even realize that their carelessness caused someone to get hurt, fortunately, it wasn't serious. The lake is being patrolled but the officers can not be everywhere at the same time. Eventually, maybe there will be designated areas for boating so it will be safer for children to go swimming. We have swimming areas but it is evident that they are not recognized by the many boat enthusiasts!

* * *

A very pleasant meeting was held at the home of Mrs. Tony Polyanich last Thursday night and the Ladies Auxiliary of the Donner Lake Volunteer Fire Department accomplished many things. One in particular which will interest members unable to attend, is a dance to be held on the foundation (when it is poured and dry) of the new fire house. There will be a potluck supper at DonLac Lodge before the dance and it sounds like a lot of fun to me. Also of interest is the fact that several members volunteered to meet at the home of Mrs. Hank Slack to address envelopes to property owners at Donner Lake. Each year letters are sent to property owners asking for five dollars for unimproved lots, ten for lots with a home and a little more for business sites. By getting these donations the fire department is able to operate without having to form a tax district to obtain funds. If you are a property owner and read this column, please do not wait for your letter, make your check payable to Donner Lake Volunteer Fire Department, care of Roy Slate, treasurer. The fire department needs your donation now in order to get the fire house on its way before winter. After the meeting was adjourned, refreshments were served by hostess Mrs. Polyanich Mrs. Paul Capel and Mrs. Anita Allison. Next meeting will be a dinner meeting to be held at Donner Lake Lodge on September 17.

* * *

A picnic was held at the east end of Donner Lake Sunday when members of the Truckee Fire Department, the Firettes, Donner Lake Volunteer Fire Department and the Ladies Auxiliary got together. The ones who could get away for the outing said they had a lot of fun and it is hoped that after the busy summer months are over, another get-together will be planned so that more members will be able to join in with all the fun, and get better acquainted.

* * *

Dr. and Mrs. Robert Affeldt spent a very enjoyable weekend at Shasta Lake with about forty other dentists and their families. they all camped out and have this annual affair every year to get-together for relaxation and for scientific programming.

Among the unique displays to be shown at the fair is an entirely new navy exhibit occupying about 25x40 feet of space and the Aerojet General Corporation will display their missiles.

Many thoroughbred race horses of the finest blood will be in the horsebarns and an entirely new class, the Welsh Ponies with 16 entries, will be there. These little ponies, bigger than Shetlands and suitable for both adults and children, survived a purge by a roman emperor several centuries before Christ when they fled to the mountain peaks.

Full days of entertainment are in store for fairgoers at Grass Valley, August 27, 28, 29, 30.

Arkansas became a state in 1836, seceded in 1861, and was readmitted to the Union in 1868.

Christ Jesus' triumph over material laws of limitation established the supremacy of God's unchangeable law.

This is a theme to be set forth at Christian Science services Sunday in the Lesson-Sermon entitled "Christ Jesus." Included in the Bible references to be read is the account in John (6) of Jesus' feeding of five thousand men with five loaves and two fishes.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy the following will be read (273:21-26): "God never ordained a material law, it would oppose the supremacy of Spirit, God, and impugn the wisdom of the creator. Jesus walked on the waves, fed the multitude, healed the sick, and raised the dead in direct opposition to material laws."

The Golden Text is from John (3:16): "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life."

There are more articles on the subject of marriage and problems in the home than perhaps any other controversial news item. The Bible offers the greatest love story ever told. The pastor's message next Sunday is entitled: "Yielding to the overtures of the Heavenly Bridegroom."

That, son, is a home that's completely heated by electricity. And in the years ahead, it's likely that more homes will be heated by electricity than by any other method.

Electric home heating is the really modern way—clean, automatic, safe, and so convenient. You can have a chimney if you want it, of course, but you'll save many dollars on home building with easy-to-install, economical electric heating.

NORTH TAHOE

By JUDGE HARRY CHARRISON

WEATHER

Sunday PM raining just a wee bit, lake rough and the wind blowing feels and looks like fall, but it just can't be. Now on Monday morning a pretty heavy rain is coming down, everything is so green and the air nice and fresh. It is a blessing to the forests.

HEAVY TRAFFIC

Traffic through Kings Beach is very heavy these days, if one is trying to get out of a side street you have to allow yourselves 15 minutes—then after you get onto the highway prepare to travel a slow pace then don't follow too close. A great percentage of the accidents are caused by following bumper to bumper.

Just had a call, drunk driver picked up—so brave over night but like little mice when they appear in court next morning.

SHOWS

Top notch shows are running at the clubs at Crystal Bay with good reports of business in each club. Saw Mickey Rooney at Cal Neva Lodge, it was excellent, another treat will be Ray Bolger and supporting stars. Be sure to attend.

COMING BACK

We hear that Bill and Gwen Harling are up looking for property and hope to build right away. They have been living in Reno for the past few years but just want to get back up here permanently.

FROM BAKERSFIELD

Mrs. Grace Eybel and children with some friends are up for a week staying at their home on Brassee Avenue. They are enjoying coolness up here and say it is hard to believe it could be so hot down below.

BIRTHDAY GREETINGS

Many happy birthdays are extended to Marguerite Ashton on the 20th of August. She and Dave celebrated with a dinner party at the North Shore Club with friends the Bob Bakers' from Pomona, Calif.

FROM BAKERSFIELD

Aaron and Kathryn Abbott are very happy this week over the visit of Aaron's daughter Alyce from Bakersfield, she is quite a young lady and we hope she enjoys her visit to this beautiful country.

SUCCESS

The Swiss steak dinner last Sunday afternoon was a wonderful success for the Commnity Church, a wonderful fellowship besides a goodly amount for the building fund. The payment of $1200 must be met by November 1st and the way these women worked they will not fail to reach their goal.

GO SOUTH

Jean Little and her daughter, Karen, with baby, Clay, will go to Bakersfield this weekend to take Jean's mother, Mrs. Pelly, home. Mother Pely has been at the Little's all summer.

IN GERMANY

Wilma Abbott has just received word that her sister's son, Warren Coates, has just arrived in Pasdorf-Huenfeld, Germany. Coates is an exchange student from Bakersfield and is a senior in the Bakersfield High School and will live in the home of Dr. Albert Martin in the German village. The daughter of Dr. Martin will live in a home at Bakersfield. These exchange students are financed by the Methodist Church of Bakersfield and Coates is president of the sub-district MYF of that area.

TO ATTEND SCHOOL

Doris Griffith, granddaughter of the Abbotts returned from Bakersfield last week after a short visit with her parents. She will stay with Aaron and Kathryn and attend the Tahoe Truckee High School this year.

NOTICE

Mrs. Nelson and I take this opportunity to express our sincere appreciation and gratitude for prayers and acts of kindess demonstrated by so many during our recent illnesses. This we shall never forget!

In addition, I also wish to clarify an existing rumor that we are "about to leave Truckee." This is an untruth! I have considered additional training in orthopedic surgery, however, this will not be possible until midyear of 1960—if then. Dr. K. E. Turner, who has been associated with me in the practice of medicine and surgery will leave this area sometime this year to limit his practice to Ob and GYN. At that time another M. D. will be associated with me.

ABBOTTS PLANNING TO LEAVE TAHOE

TAHOE VISTA—The A. E. Abbotts (Ace and Mary) have decided to leave the beautiful Lake Tahoe area, last year they sold their resort Abbott's Cottages, to their son Aaron and wife Kathryn, keeping their home, and intending to live here for many years, but Aaron and Kathryn still have their home in Fresno, which has been under lease. Now the lease has expired so Ace and Mary have decided to move to Fresno. After all this snow shoveling is getting a little rough although Ace declares he doesn't mind, and will miss that job.

The Abbotts want to say how much they have enjoyed living in Kings Beach, and will miss their many friends here but they will be able to return every summer to see old friends.

Mt. Ida, 776 feet high, is the highest elevation on Angel Island in San Francisco Bay.

and the Whithams built there, too, on the same street. The Hartjens have been visiting Mrs. Whitham at Tahoma this week. They now live at Bellflower and Mrs. Whitham winters in Long Beach. Mrs. Whitham's son, Herm and his wife, were also up over the weekend. Their son, Jim. Herm is mail superintendent at Auburn.

Mrs. Sue Jackson of Jackson's Cottages enjoyed a visit from the Steve Massottys of Alameda, her sister and brother-in-law. Sue's brother, H. M. Chapman has just finished building a house at Skyland.

Mr. and Mrs. Ralph Stanley of Stanola Lodge, Tahoma, are entertaining Irwin Kottke of Studio City who is Mrs. Stanley's brother.

Last week was a week of entertaining for Tahoe residents. Mr. and Mrs. Brooks Walter entertained at a dinner dance, with orchestra, for 50. The John Murrells had 150 guests Sunday.

* * *

Mr. and Mrs. Granny Abbott entertained at their Truckee river house with a beef barbecue for 12 guests.

* * *

Mr. and Mrs. Brooks Walker had quite an exhausting experience some weeks ago when they drove their army command car into the Rubicon, where it burned out a coil at the bottom of the Rubicon river. They trudged 4½ miles and were lucky enough to meet a jeep coming from Georgetown which took them into Homewood where they borrowed a jeep, made a day's trip back to Rubicon to bring out their car.

Don Blessing, Tahoe Pines, is recovering from a shoulder operation of bursitis. Sherrell Fallat, of San Francisco, Don Blessing's daughter, is at the Blessing house for the rest of August. Don Blessing, Sr. is doing his army service close to home at Piedmont where he's stationed with a NIKE base.

Sad news last week was the sudden illness and death of Attorney John L. Murphy of San Francisco and Tahoma. He was 71 years old and a champion of the poor and friendless who could not afford legal advice in the criminal courts. Born in Marysville, which was named after his great-great-grandmother, Mary Murphy, a survivor of the Donner party, Murphy was a member of the volunteer fire brigade during the San Francisco earthquake, and helped save St. Mary's Cathedral from the flames, as well as being entrusted with its funds of more than $1-million in cash. Survivors are his wife, Nell, two sisters, Irene and Alice Murphy of San Francisco; and two daughters, Mary A. Martin and Nell A. Cox of Los Angeles, and six grandchildren. His friends, neighbors and associates at Tahoma will miss him.

Mr. and Mrs. John Merrill entertained at a pleasant cocktail party at their lakeshore home near Tahoe City on Sunday.

The Tahoe City Little Leaguers played a Lodi team on the local field Saturday afternoon and went down to defeat by a score of 8 to 2. Better luck next time, boys. On Sunday the group played a double-header at the south end, won one and lost one.

AFFAIRS OF STATE

SACRAMENTO — (CNS) — The ticklish question of what to do about serving liquor in the vicinity of colleges and universities in California apparently was not solved completely by legislative enactment of a bill lifting the mile-and-a-half restriction.

Supporters of that measure, SB1093 by Sen. Eugene McAteer (D-San Francisco), had contended the laws which prohibited liquor licenses within a mile and a half of the colleges were covered with whiskers, having been passed 70-odd years ago when a mile and a half meant something. With modern transportation, any student wanting a bracer before or after school needs only to drive his car —and a majority of the students have cars.

Gov. Edmund G. Brown backed into signing the McAteer bill into law by saying he didn't want to throw it wide open. He suggested the department of alcoholic beverage control adopt a rule which would retain a limit of one mile, except in the cases of existing establishments which might be taken in by expanding campuses.

Brown said also he felt service of liquor should be confined to dining tables in such eating places and only during hours in which meals were served.

Understandably, Thomas W. Martin, director of alcoholic beverage control appointed by Brown, recently announced his intention to adopt a rule putting these suggestions into effect. A hearing on the proposed new rule will be held Sept. 24.

Next came Russell S. Munro, Sacramento attorney and former ABC director. Munro represented the California State Restaurant Association and was largely responsible for steering McAteer's bill through the legislature.

Munro wants some limits on the issuance of licenses around colleges, but not to the extent proposed by Martin and the governor. Munro's proposal, briefly, would require:

Licenses could be issued only to restaurants capable of serving 50 or more persons at the same time; the bar area could not exceed 30 per cent of the floor space and the bar labor costs could not exceed 25 per cent of the total labor costs. It would prohibit any exterior door leading directly into the bar.

Not included in Munro's proposal is any distance limit. In fact, Munro and his people feel they didn't gain much in the passage of the McAteer bill if the department now can put a mile limit for prohibition of licenses.

Munro asked that his proposal be heard at the same time as the department's proposed rule and presumably it will be included on the hearing agenda.

To add a bit more confusion to to the subject, McAteer has received an opinion from the legislative counsel, to the effect that the department has no authority to set up restrictions as to the type of licenses issued around the schools. The legislative counsel opinion is difficult to understand as the department has broad discretion in issuance or refusal of issuance of licenses, given to it by the constitution.

The opinion, on the other hand, appears to deal with the department's authority under the legislative act.

Sale of liquor in estalishments around colleges and universities actually is but a tiny segment of the alcoholic beverage industry as a whole. However, because of strong opposition from church groups and others against drink in general, it generates a lot of interest.

For the present, it would appear that the new licenses around the schools will be issued substantially in conformance with the wishes of Gov. Brown.

Two people, Carmen Munoz, 33, Sacramento, and Betty Jane Carbonero, were hurt when their cars were struck from the rear Sunday afternoon near Soda Springs by one driven by Hobart M. Scott, Oakland. Scott was cited for following too closely. Also injured was Robert Munoz, 14 months.

Plans were outlined for the traditional annual sale of Christmas Seals by the Placer County Tuberculosis and Health Associations Seals Sales Committee at a meeting August 18. Present were committee members from locations all over the county.

Recognizing the importance of TB research and treatment, the committee plans an extensive campaign to encourage Placer County residents to purchase Christmas Seals with their usual enthusiasm.

NOVEL EXCUSE FOR VIOLATION GIVEN

Nearly everyone has an excuse for violating the traffic laws, but the one offered Judge Harry Charrison at Tahoe City this week, should take first place.

The violator certainly had a good reason for illegal parking if the facts are correct. It seems that a youngster was making a cast while fishing and the hook went through the accused's lower lip.

In an effort to get adult help to extract the hook, the man parked partly on the pavement. His helper only imbedded the hook deeper, he told the judge and then he was required to drive some distance to get medical aid to have the hook extracted.

The judge didn't doubt the story, but fulfilled his obligation nonetheless.
